Republican nominee will
to capture the support of
the organizations, the organ-
of social reform and the
ness element, which frequently
res elections. He will seek to
use the interest of that large
of Americans, who take their
the lights and who go to the

to vote Republican, Hoover
is assured of the election.

Indicated by Speech
The Republican candidate indi-
cated the strategy of his campaign
in his acceptance speech, when he
voted large portions of his address
the subjects of social reform and
the "silent vote" of the coun-
in fact, to the women of the
country, urging them to take an in-
terest in politics generally and in
the presidential election especially.
After declaring the problems of
America are "moral and spiritual"

nomic. Hoover added: "The par-
ticipation of women in politics
raises higher political standards."

Hoover has discounted all reports
has followers that he will win "in

Hoover will get back to Washing-
ton prepared to make "three or

points in eastern and border line
states. The Republican organiza-
tion probably will force him to make

IMP PURITAN
GOES OVER CITY

Goodyear Airship Is Seen
In Salem Enroute To,
From E. Liverpool

Passing over Salem twice at a
height of about 1,000 feet, the
Goodyear blimp "Puritan," belonging
to the Goodyear Tire and Rubber
company, of Akron, was seen by
hundreds of persons while enroute
from returning from the Madison
wednesday airport, near East Liver-
pool, Wednesday.

The blimp is one of the new type
constructed by Goodyear. Its cabin
has a capacity for six passengers
and the pilot. It has a length of
approximately 128 feet and a width
of 27 feet, holding 86,000 cubic feet
of helium gas.

It passed over Salem enroute to
Liverpool at 10:15 a. m., Wed-
nesday, arriving at the airport at
11:30 a. m. Returning it passed over this
city about 4:45 p. m.

Kellogg Will Sign Anti-War Treaty In League Birth Room

Paris, Aug. 16.—When Sec-
retary of State Frank B. Kellogg,
of the United States, signs the
anti-war treaty at the French
foreign office, he will sit in the
same room where sat President
Woodrow Wilson when he gave
the powers his outline of the
league of nations.

In fact, the league of nations
was born at that time in the
very room where Mr. Kellogg,
acting for the United States,
will place his name on the pact
designed to outlaw war.

FOUR COLLEGE YOUTHS FOUND SAFE IN NORTH

Regina, Sask., Aug. 16.—With
hope rapidly waning that they
would even be found alive, the four
American college youths who set
out in two canoes to reach the Arctic
Circle, today were reported safe
in the wilderness south of Fort
Churchill.

Word of their safety was brought
back to civilization by Corporal J.
J. Malloy, R. M. P., stationed at
Pelican Narrows. The news came
after four weeks anxious waiting.

The party is composed of John
Fuller, 21, of Keokuk, Ia.; Max J.
Kane, 19, of Iowa City; Gordon
Armstrong, 20, Lake Iowa, and Pe-
dar C. Boddum, 24, of Crystal, Ia.
All are college men.

The group left Iowa City May 29,
with the avowed intention of going
to Chesterfield inlet.

BILLIONS INVOLVED IN TREASURY TURN-OVER

Washington, Aug. 16.—One of the
biggest single day's financial trans-
actions that has taken place since
the World War will be staged by the
Treasury department on Sept. 15.
The gigantic money turn-over,
officials said today, will include re-
tirement of about \$1,000,000,000 of
the Third Liberty bond issue, a new
security issue of well over a half
billion, income and corporation tax
collections of about \$440,000,000 and
other incidental receipts and ex-
penditures.

70,000 Trainmen Will Strike Next Month Vote Indicates

Cleveland, Aug. 16.—Seventy thou-
sand employees of western railroads
will probably go on strike some time
next month.

A joint strike of the Brotherhood
of Railway Trainmen and the Or-
der of Railway Conductors is inevit-
able in the western states, it was in-
dicated today by telegrams received
here by A. F. Whitney, president of
the trainmen.

The strike impends as a result of
the refusal by the railroads to grant
trainmen, yardmen and conductors
pay increases ranging from 10 to 18
per cent.

About 80 roads, controlling 98 per
cent of the mileage west of Chicago
are involved.

At a recent arbitration meeting
in Chicago, the railroads offered a

7 1/2 per cent wage increase if the
unions would consent to the abolish-
ing of certain working rules.

While the wage increase was said
to have been viewed favorably, the
conditional proposal was not, and a
committee representing the brother-
hoods withdrew from the Chicago
meeting and decided to take a strike
vote among members of the organi-
zations.

Reports received by Whitney indi-
cate that the vote will support the
view of the committee. Reports
have come in from Omaha, San
Francisco, Salt Lake City, Chicago
and other western points.

Whitney read one telegram from
an officer of the brotherhood in
Kansas City to an International
News Service reporter this morning.
It states, "Voters here unanimously

endorse action of western chair-
men's committee. Have satisfactory
big vote." It is signed by D. A. Mc-
Kinsey.

Unless the roads consent to the
demands of the two unions, a strike
next month seems inevitable, Whit-
ney said.

No action will be taken, however,
until after Sept. 2, when the ballots
will be counted officially.

In the event the vote favors a
strike, the date for the walkout will
probably be decided immediately
afterward, Whitney stated.

Wage increases have already been
granted the unions by roads in the
east and south and officials of the
organizations charge that the re-
fusal of western roads to take such
action is a discrimination against
the western unions.

Signature of Polar Explorer In Bottle Believed Authentic

London, Aug. 16.—The Norwegian
consul at Amsterdam is inclined to
believe that the message found in a
bottle off the Dutch coast at the be-
ginning of the week, bearing the
signature of Capt. Roald Amundsen,
is authentic, said a dispatch from
The Hague to the Daily Mail to-
day.

The message had been sent to
Mrs. Amundsen in Norway for com-
parison with the missing explorer's
hand writing.

The message was first received
with skepticism because of the in-
complete location it gave.

FOUR ON PLANE SAVED BY SHIP

Experimental Group Are
Forced Down by Gale
Off Key West

Key West, Fla., Aug. 16.—A strong
gale that swept out of the Gulf of
Mexico took the Pan-American
Airways plane General Machado,
wrecked off the west coast of Flor-
ida last night, more than 120 miles
off her route, air line officials said
here today.

Charles Eggston, of Atlantic City,
a passenger, died aboard the Amer-
ican tanker Legionnaire from injuries
received when the plane landed in
the water. Robert H. Fatt, pilot,
was injured.

Key West, Fla., Aug. 16.—The
American tanker Legionnaire picked
up four men from the disabled air-
plane General Machado last night
between Key West and Havana in
the teeth of a howling gale, ac-
cording to radio advices received
here today.

The four men aboard the plane
were Robert H. Fatt, pilot; Angel
Alfonso, mechanic; Luther Ritz,
radio expert who was trying out a
wireless telephone and C. Norman
Ageton, of Flushing, N. Y.

According to a radio message re-
layed from the tanker to the naval
radio station here by the coast
guard cutter Sauk, all of the
plane's personnel were saved. How-
ever, a later message, received here
today at the coast guard station at
St. Petersburg, stated that Ageton
had been killed.

The plane took off from Havana
at four o'clock yesterday afternoon.
When it failed to arrive here an
hour later, a sister ship was sent
to search for the missing plane.
Then at 7 o'clock a wireless mes-
sage from the General Machado re-
ported that the plane was circling
over a tanker but was being buffet-
ed severely by a 45-mile gale which
had swept it off its course. Heavy
seas were running.

War On Cutouts Is Started by Police On Orders of Safer

Machines driving through the
city with open cut-outs or muff-
lers are "taboo," according to
an announcement made today by
Safety Director Rex W. Ruger.

Ruger ordered Acting Police
Chief Ralph Stoffer to instruct
each member of the police force
to arrest the driver of any ma-
chine violating city laws in that
respect immediately.

The first arrest on the safety
director's order was made by
Patrolman William Reardon,
who arrested F. E. Moul, Salem
for driving with cut-out open on
Franklin ave.

The driver, pleaded guilty and
was fined \$5 and costs today by
Mayor Phil G. Hiddleston.

U. S. to Probe Guard Attack On Yachts

Toledo, Aug. 16.—Congressman
W. W. Chalmers today was in pos-
session of a telegram from Com-
mandant Billard of the U. S. coast
guard service in Washington, prom-
ising full investigation of the in-
cident Monday night off Port Clin-
ton where the lives of several To-
ledoans were alleged to have been
jeopardized when their pleasure craft
were fired on by government rum
patrol boats.

Brought to Sebring to face
charges in Justice Brooks' court,
Rogers denied that he was intox-
icated at the time of the accident.
Floyd Chappell, another member of
the automobile party was fined \$5
by Justice Brooks for being drunk.

Marine Success In Nicaragua Reported

Managua, Nicaragua, Aug. 16.—
The vigorous effort being made by
United States marines and national
militia to clear the Coco river dis-
trict of rebels and outlaws is meet-
ing with complete success, accord-
ing to advices received here today.

Gen. Emiliano Chamorro, former
president and a power in Nicar-
aguan politics, has notified the elec-
toral board he is a candidate for the
national senate for the department
of Matagalpa.

Carl Burns, 27, of Enon Valley,
Pa., is in the Salem City hospital
suffering from concussion of the
brain caused by a 40-foot fall from
a building near East Palestine.

Burns, who is a fireman for a
power and light company, was
working on the building when he
accidentally came in contact with a
live wire which shocked him and
caused him to fall.

He was brought to the hospital
at 10:30 a. m. today.

Ohio Fruit Crop To Be Slightly Better Than That Last Year

Columbus, Aug. 16.—Ohio fruit
crop this year will be slightly above
that of last year, according to the
August report of the Ohio agricul-
tural experiment station in a re-
port issued here today.

The same report of conditions
holds good over the entire United
States, the statement indicated.

Although apples declined slightly
in Ohio during July, the present
outlook is for 5,880,000 bushels
against 5,600,000 bushels in 1927, the
statement declared. The commer-
cial apple crop of the state is esti-
mated at 549,000 barrels as com-
pared with 541,000 barrels last sea-
son.

13 MINERS DIE IN SHAFT BLAST

Explosion of Gas Wrecks
Part of Interior Of
Pennsylvania Mine

Coalport, Pa., Aug. 16.—With 13
miners killed in a gas explosion at
the No. 3 mine of the Ivyton Coal
and Coke company at Blair City,
near here late yesterday, federal
and state mine bureau officials to-
day examined the blast torn work-
ings where 152 other men narrowly
escaped with their lives.

George McCae, of Pittsburgh, rep-
resenting the federal mines bureau
and Ira H. Thomas, deputy state in-
spector of mines, were at the scene
of the blast today.

Of the fourteen men who were at
work nearly three miles from the
mine mouth when the blast let go,
only one, Marino Coscia, 37, escaped
the full force of the explosion and
came out alive.

The fact that the day shift had
started out of the workings shortly
before the blast probably averted a
greater death toll. Most of the men
were well started toward the mouth
of the mine when they heard the
explosion.

Several of them said they thought
the dull, re-echoing detonation was
the explosion of a generator. A
short time later, however, the tell-
tale sweeping wave of heat fol-
lowed, and they fled for their lives.

The bodies of the 13 men were
recovered several hours later. All
apparently had been struck by the
full force of the blast, many strip-
ped of clothing.

MAIL SHIP ON ROCKS, REPORT

San Francisco, Aug. 16.—While
ships off the lower California coast
of Mexico sped today to the as-
sistance of the Panama mail liner Ecu-
ador, on the rocks of Cape San Laz-
aro, a check by company officials
revealed that more than 200 persons
are on board the stricken inter-
coastal vessel.

San Francisco, Aug. 16.—The
Panama mail steamer Ecuador was
reported aground at Cape San Laz-
aro 950 miles south of the Golden
Gate according to an S. O. S. radio
signal picked up at 4 p. m. by the
Mackay Telegraph company.

Cape Can Lazo is a jut out from
a rocky stretch of coast on the Pa-
cific side of Lower California.

Seek Linen Bandits

Keene, N. H., Aug. 16.—The coun-
tryside for miles around today was
secured for a trio of robbers who,
at pistol point, held up S. E. Kaleh,
wealthy Syracuse, N. Y., importer,
as he was driving his automobile in
the town of Dublin and robbed him
of \$25,000 worth of imported linens.

LOCHER CLAIMS FRAUD IN VOTE OF CLEVELAND

Defeated Candidate May
Ask State Investiga-
tion In Cuyahoga

Columbus, Aug. 16.—An in-
vestigation of a report that U.
S. Senator Cyrus Locher, Clevel-
and, dry, may have defeated
Attorney Graham Hunt, Cin-
cinnati, liberal candidate, for
the short term Democratic
nomination for U. S. senator
was launched this afternoon by
Secretary of State Clarence J.
Brown.

An unofficial report was re-
ceived at the secretary of state's
office shortly after noon that
the Cuyahoga county election
board had discovered a mistake
of 10,000 votes in favor of
Locher.

Cleveland, Aug. 16.—Senator Cy-
rus Locher, defeated in the state
and in his home county here for the
Democratic short term senatorial
nomination, may ask a state in-
vestigation of the primary in Cuyahoga
county, it was learned today.

Senator Locher charges that there
was a larger vote in the county on
the Democratic short term nomi-
nation than on the other senatorial
term or the gubernatorial race.

At the same time, Locher head-
quarters in Columbus issued a state-
ment, according to reports reaching
here, declaring that:

"Whether Senator Locher was
nominated to represent the Demo-
cratic party in November is a mat-
ter of little importance compared
with the obvious fraud revealed in
the Cuyahoga county returns.

The Cuyahoga county result, as
announced by the election board,
gave Locher 12,989 and Graham P.
Hunt of Cincinnati 26,224.

Locher's friends believed there
had been an error in transcription
of the vote, as he had run behind
by about 4 to 3 all Tuesday evening.
Late returns, however, showed the
margin widening.

His Columbus headquarters, how-
ever, was not quite so charitable and
issued the statement hinting that
fraud had been committed here
against him.

Women's Activities Of Church Outlined

The yearly reports were read at
the first quarterly meeting of the
Women's organization of the M. E.
church Wednesday afternoon at the
church.

The six circles which compose the
organization have earned over \$1,070
during the year.

Seventy meetings have been held
by the circles and the members
have made over 2,113 calls. Four
hundred and twenty-five bouquets;
150 cards and 16 baskets of fruit
have been sent to the sick and
shut-ins.

Fifteen dinners and four lunches
have been furnished needy people.
Twelve new members were added
during the year.

Circle 2 was hostess at this meet-
ing and served refreshments.

Final Official Count In
These 2 Contests May
Change Result

Columbus, Aug. 16.—In view of
the apparent close race between
Myers Y. Cooper, Cincinnati, and
Congressman James T. Begg, San-
dusky, for the Republican nomi-
nation for governor, Begg supporters
have been requested to watch the
official count at the offices of the
88 county election boards through-
out Ohio.

Cooper continued to hold the lead
by a small margin, in the face of
the complete unofficial returns,
shortly before noon today.

Hoke Donithen, Marion, who
served as Begg's primary campaign
manager, requested representatives
of Begg to be present while the
various county election boards are
making the official count, it was an-
nounced at Begg headquarters here
today.

Begg stated that he had no in-
tention of seeking a recount nor to
contest the result of the G. O. P.
gubernatorial contest in the event
that final official tabulations dis-
close the nomination of Cooper.

Columbus, Aug. 16.—That Myers
Y. Cooper, Cincinnati, has been se-
lected as the Republican nominee
for governor of Ohio was indicated
today by complete unofficial returns
from Tuesday's statewide primary
election.

The contest for the G. O. P. nomi-
nation for lieutenant governor, full
term, appeared to be in doubt. With
381 precincts missing, State Rep.
John T. Brown, Mechanicsburg, was
leading George C. Braden, Warren,
by 595 votes, according to unofficial
returns. Braden was nominated
for the short term as lieutenant
governor.

Officials at Cooper headquarters
here stated that, according to re-
ports made to them, Cooper had a
lead of 5,568 over Congressman
James T. Begg, Sandusky. Complete
unofficial returns, it was stated
gave Cooper 239,725 votes while
Begg received 254,157.

Turner Polls 90,236
Other unsuccessful candidates for
the Republican gubernatorial nomi-
nation, on the basis of complete
unofficial returns, were credited with
having received the following votes:
Att'y. Gen. Edward C. Turner, Col-
umbus, 90,236; Fred Kohler, Clevel-
and, 25,115; Harry C. Smith, Clevel-
and, 16,181; Harry A. Shanley, For-
est, 6,840.

For the G. O. P. nomination for
lieutenant governor, full term, com-
plete returns gave Brown 113,164
votes and Braden 112,569, it was
said.

The following state tickets will be
presented to Ohio voters at the
election next November, according
to unofficial returns available to-
day:

Republican
Governor—Myers Y. Cooper; Cin-
cinnati.

Lieutenant Governor (full term)
—Undetermined.

Lieutenant Governor (short term)

TWO BOYS DEAD IN CASINO FIRE

Trapped On Second Floor
Of Blazing Building
At Summer Resort

Wilkes-Barre, Pa., Aug. 16.—Two
boys were burned to death when
fire destroyed the casino at Harvey's
Lake, a summer resort, near here
early today.

The boys, according to reports
reaching here, were employed in the
bowling alleys and were asleep on
the second floor of the building.
They were trapped before they were
able to flee from the blazing struc-
ture. The identity of the two vic-
tims has not been established.

The flames spread through the
large wooden structure quickly, cut-
ting off all avenues of escape. The
Grotto, an adjoining building, was
also damaged. Fire departments
from nearby communities responded
to calls for aid and after an hour's
battle brought the flames under
control. Cause of the blaze has not
been determined.

ALL WORK AND NO PLAY

Some men find it impossible to play. They work long hours year in and year out. Vacations mean nothing to them. But the man who does not play, or does not know how to play, or refuses to play is seldom an optimist. The old saying about all work and no play making Jack a dull boy has had its verity demonstrated time without number.

Take the case of President Coolidge. The president has been noted for the solemnity of his demeanor, coupled with a devotion to hard work. On vacations which he has taken in the past he has combined a vast amount of work with a small amount of relaxation and recreation.

Last summer Mr. Coolidge let up a little and the people detected some evidence of humor behind his solemn exterior. But this summer Mr. Coolidge seems to have thrown care to the wind, and according to newspaper reports, has gone after pleasure in earnest fashion. The result has been a vast improvement in Mr. Coolidge's humor.

Recently Mr. Coolidge estimated there are some 45,000 fish in the Brule river and remarked that, while he may not have caught all of them, he has them intimidated. Given a huge basket of raspberries as a gift, Mr. Coolidge said many times he had been recipient of raspberries, but none so fine as his latest gift. In the parlance, that would be called wise-cracking.

Keeping one's nose to the grindstone will wear down the machinery of the body much more rapidly than should be the case. Virtually every man can find the time to let work slide for a little while each summer, that he may relax and play and commune with nature and re-energize his system so that when he takes up the daily routine he will be fresher, will have a brighter perspective and will feel more like tackling the exacting problems which confront him.

LARGER GOLF BALL

With the solemnity with which such an event is entitled, it is reported that officials of the Royal and Ancient club of St. Andrews will recommend to the United States Golf association a slightly larger and lighter golf ball for regulation play. The United States association has recommended such a thing to the Royal and Ancient on at least two separate occasions. Perhaps when each of the organizations has recommended it sufficiently, one to the other, something will be done about it.

The point behind the recommendation is that the increase in the flight of a golf ball through the past two decades has necessitated constant remaking of golf courses. The course had to be stretched to fit the ball. It was a rather expensive process.

A larger and lighter ball means a revision downward in the matter of carry and roll, and a consequent saving in real estate. If such a ball were adopted it would be quite possible to play a course today, play it tomorrow and play it again in a year, and still recognize it. It would be reform without the bane of all golf courses—reconstruction. It would, too, bring the duffer considerably closer to the star.

The duffer, however, will view this last point with jaundiced eye. He wants to "drive a mile," and finds it difficult enough now to get the ball into the hole. From the duffer's point of view relief can come from only one course—increased size of the hole—a mere foot or so.

What Others Say

THE MARATHONERS

The cake-eaters, the lounge lizard, the hollow-chested sheiks who flirt with flapper seductions look palely flaccid and incompetent in comparison with the virile youths who took part in the recent great Marathon over seas.

Taking one event—the Marathon race itself—the clean-limbed, sound-jungled and sound-hearted men—an Asian mechanic, an Asian salt drier, a lad who runs a newsstand in a South American city, and an American taxicab driver, were all

men of simple life, outdoor habits, hard workers.

Men who run a distance of 26 miles must have a better foundation for resistance than one that is built on hootch and hilarity; no dissipations must be theirs.

Over the countryside they sped, over rural roads and city streets, up grade and down, running, for the most part, freely and easily. The winner came abreast of the tape without evidence of fatigue or strain—did not even perspire. So much for life and habit in the Riffla hills for El Quafi is an Algerian Arab. The far-southern newsboy finished second, with the abstemious Finn, Matelli, third, the Japanese salt driver, Yamada, fourth, and our own Joe Ray, fifth.

America did not win, though Ray put up a game and commendable fight. But together, these men form a group of physical excellence of which Marathon lovers of the old Grecian days well could have been proud.

It is a fine thing that this ancient formula of physical striving in varied fields of effort is being cultivated and developed in this day. It makes for better feeling between the nations participating, and it spreads abroad throughout the world a stimulus which shall be responsible for evolution of race of mighty men in physical sense. And activities in the great arena of pugilism by Gene Tunney, prove that muscle and brain need not be divorced in the making of a super-athlete.—Cincinnati Enquirer.

TREATING SNAKE BITE TO PREVENT POISONING

By Royal S. Copeland, M. D., United States Senator From New York, Former Commissioner of Health, New York City

In the late summer and early fall we are apt to run across the dangerous snake. When the water drives up in the hills and mountains, the snakes come down into the lowlands. They are seeking water and food.

Comparatively few persons are bitten by snakes. Very few persons are bitten, probably because we hate snakes and avoid their haunts. So inborn is the dread of serpents that we look askance upon the occasional individual who says he likes them.

Fatal effects from snake bites in North America are extremely rare. Tropical snakes are larger and have larger poison glands. When such snakes bite they inject into the victim larger doses of the venom. On this account, their attacks are more to be dreaded.

The immediate local effect of a snake bite is trifling. The danger comes from the effects of the poison upon the heart and nervous system. The purpose of any treatment which may be applied is to prevent the poison from getting into the general blood supply. When this takes place the poison is carried to every part of the body.

If hand or foot has been wounded, a ligature of some sort should be tightly tied about the limb, above the wound or between the wound and the heart. For this purpose you may use a torn strip of handkerchief or shirt, a string, shoe lace, neck tie, piece of rope, a wire, piece of grape vine, a flexible switch, or strip of tough bark. Whatever is used it should be tied firmly. After this a stick should be inserted under the ligature and tightly twisted.

The second should be sucked out and washed with soap and water. If they are available, no harm will come from sucking if the mouth is healthy and without broken tissues. Permanganate of potash crystals if they can be had should be rubbed

into the wound. The patient should be kept warm and given small quantities of coffee until the doctor arrives.

There are various serums which may be injected but these should be used by the doctor. They may be had on telegraphic request from the New York Zoological Garden or possibly from your local board of health.

If you should happen to be bitten by a snake, don't fret yourself into a fever of fear. In our country at least in the northern and eastern portions, snake bite is almost never fatal. The chances are you will have little trouble.

Answers to Health Queries
H. W. D. Q.—What is the cause of my legs from the knees down including my feet being cold every night?

A—This is probably due to poor circulation caused in most instances by a run down state of health. For particulars send a self-addressed stamped envelope and repeat your question.

S. R. S. Q.—Some time ago I had a slight touch of tuberculosis. I have been pronounced cured. Do you think it would be all right for me to marry and have children?

A—Yes, if a physician's examination of lungs would warrant no deleterious after-effects.

X. B. Q.—What do you advise for dry, rough patches on thighs and lower part of the back?

A—May be due to a form of eczema. Watch the diet and elimination. For full particulars send a self-addressed, stamped envelope and repeat your question.

THE single lunar transit, Moon in square aspect with Saturn, marks this as a day for dogged determination and resolution to forge ahead and wrench success and ultimate reward from stubborn obstacles and many postponements and procrastinations. Only diligence and faithful service, patience and perseverance will promote the best interests. Personally, there may be unconventional affairs.

Those whose birthday it is may prepare for a year of persistent effort and patient service if success is to be won from delays and tenacious obstacles. These promise eventual recognition. Discretion in personal matters is admonished. A child born on this day should be fitted for a life in which there may be many obstructions and vicissitudes to be surmounted. It should be schooled in patience and perseverance in early infancy. Reward comes from faithful service.—Emerson.

result of the maturity of three short term security issues.

Income tax collections in December will amount to about \$425,000,000 according to indications. Heavy issues of bonds are anticipated at that time to meet the securities to be paid off.

Dec. 15 the government will receive \$97,000,000, as interest on the war debts, the principal portion of which comes from Great Britain.

Judging from government financial statistics up to the middle of August there is no probability of a downward revision of taxes at the winter session of congress. Officials admitted that the government will do well to "break even" for the fiscal year ending June 30, 1935.

Receipts so far this fiscal year were \$233,269,000, less by \$21,000,000 than for the same period last year. Internal revenue miscellaneous collections and customs receipts fell heavily. Income and corporation taxes were off about \$4,000,000, indicating that total collections for the fiscal year will amount to about \$210,000,000.

Ordinary expenditures amounting to \$344,285,000 exceeded last year by \$34,000,000, giving Uncle Sam a deficit of \$191,500,000 up to Aug. 15.

Posterior, O., Aug. 16.—Authorities today were investigating the death of a man thought to be E. M. Nofli, Nevada, O., who was instantly killed at a grade crossing here late yesterday when the car he was driving was struck and demolished by a New York Central switch engine.

Perfect Organization
But regardless of the number of speeches, the nominee will see to it that his organization is "letter-perfect" and that it is making a 100 per cent effort to get out the independent vote.

The nominee at present plans an "office campaign." He will open offices in a private home near his own at 2300 S. st., in the fashionable "northwest" residential section of the capital. It has been rumored here that Mrs. Hoover declined to let her home be turned into an office not even for a presidential candidate so Hoover was forced to arrange for offices in a neighbor's home. From this headquarters, he will conduct his campaign, making a small number of trips for his speeches at strategic points during the heat of the campaign.

Negro for Congress

Joseph L. McLemore of St. Louis (above) is said to be the first negro nominated for congress by Democrats. He opposes L. C. Dyer, veteran Republican campaigner, and an interesting political battle is developing. McLemore asserts that 75 percent of the vote in his district is negro. Dyer is running for his ninth Congressional term and is faced by one of the most unique battles in political history.

Cooper Issues Statement
"From information which I regard as reliable, it appears I have been nominated for governor on the Republican ticket," declared Myers Y. Cooper, in a statement issued early today.

"It is a source of great gratification to me to know that this expression of confidence on the part of the Republican voters came from so many sections of Ohio," Cooper continued. "Being mindful of the great responsibility which the Republicans have placed upon me, plans will be formulated at once for an aggressive educational campaign."

The strength of the Republican National ticket and the outstanding character of the other candidates on the (Republican) state ticket assure Republican victory in Ohio in November," said Cooper.

Close Fight Made History
The contest between Begg and Cooper for the Republican gubernatorial nomination constituted one of the closest primary election races in the history of Ohio politics.

Cooper led on early returns primary night. As the returns increased, Begg continued to gain and took the lead yesterday morning. Belated returns during the day, however, consistently reduced Begg's plurality. Late yesterday unofficial returns placed Cooper in the lead.

Cooper was the Republican nominee for governor two years ago but was defeated at the November election that year by Governor Vic

Donahay. The result was close. All of the apparent nominees on the Republican state ticket were endorsed by the Ohio Anti-Saloon league with the exception of Gilbert Bettman, Cincinnati, for attorney general. Of the Democratic candidates endorsed by the league, Congressman Martin L. Davey, Kent, Democratic nominee for governor, alone was successful.

Tiger Hunting Great Sport, but Interferes Too Much with Sleep!

LORD AND LADY HERBERT
(International Newsreel)

Tiger hunting in India is a great sport, but it interferes with your sleep, says Lady Mary Herbert of London, wife of Capt. J. A. Herbert of the Royal Horse Guards. They arrived in San Francisco from Honolulu and are on their way to England from India after a five months' tour of Australia, the Malay States, Java and Hawaii. Captain Herbert will join his regiment in London. The Royal Horse Guards are stationed at Whitehall to watch over the palace of King George. They divide their time between London and Windsor Castle. Lady Herbert shot her tiger about a year ago in Central India. The animal was nine feet and nine inches long. "The bait used is generally a bullock," said Lady Mary, who is the daughter of Lord Lichester. "The tiger kills the bullock during the night, but does not eat any of the flesh until dawn, when he returns. It is then you have your chance to shoot him. I was perched in a tree and the night seemed about ten years long, but I got my tiger, so the resulting thrill more than made up for the sleep I lost."

COURT NEWS

Bank Sues Heirs

The First National bank of East Liverpool has filed a foreclosure petition in common pleas court against Eva Smith Pearl Anderson and Mark Hocking, heirs of Jesse H. Smith, deceased to recover on a loan of \$15,000 made the decedent when alive June 18, 1926. The loan was secured by a mortgage deed on a tract of 271 acres in section 36 of Clark township. Judgment for \$15,000 and interest is sought.

Transfer Property

A deed has been filed for record transferring the former property of the McGraw Tire & Rubber company of East Palestine, consisting of 15 different tracts to Cecil P. McGraw. The sale was made by William H. Mariatt, receiver appointed by the U. S. Court, and the property was sold June 12, last for \$5,000. It has not been announced what the property will be used for in the purchasing interest.

Husband Plaintiff

Mary A. Copeland, formerly residing at East Liverpool, and whose known address was Hotel Bristol Moscow, Russia, has been sued for divorce by her husband, George H. Copeland. Mrs. Copeland is declared to have abandoned her husband and one child, which is now in the custody of his father, June 1, 1927, when she said to have left the United States for Russia. The couple were married at Cambridge, Mass., Jan. 2, 1920, and have one child, now aged five years. Gross neglect of duty for over a period of three years is also charged in the petition.

Wife Seeks Divorce

Mildred M. Brooks, of Lisbon has filed a petition for divorce in common pleas court against her husband, Ralph P. Brooks, a former insurance agent at Lisbon but now said to be residing at 802 1/2 Ave. Alliance. Mrs. Brooks relates that her husband was committed to the Canton workhouse by the probate court of this county on a charge of non-support and that Jan. 10, last, he abandoned her and left in the company with Ida M. Norman, formerly of Lisbon, and whose husband remained a divorce in the courts of this county.

If you want real Washing Efficiency and Complete Dependability Select a HAAG Washer -- and be sure!

The Haag Eighty at \$99.50
Represents the Utmost In a Low-Priced Washer

There are many good washers on the market, unfortunately, however, there are many which are not so good. Chiefly because of this reason HAAG BROTHERS COMPANY has adhered to its unchangeable policy of building highest quality products. This policy applies not only to the construction of its higher priced machines, but to low priced as well. Therefore the HAAG EIGHTY represents true dollar for dollar value which is apparent in its performance, its economy, and most important of all, its dependability. That is why the HAAG EIGHTY is considered to be the standard by which all others are judged. That is why there are thousands upon thousands of HAAG EIGHTIES in use today in both city and farm homes.

Today the HAAG EIGHTY represents greater value than ever before. It is equipped with a sub-merged agitator, and is finished in a beautiful grey lacquer, making this unit comparable to many of the highest priced washers on the market.

You can buy the HAAG EIGHTY on the most convenient terms. See it today, and be convinced, for there is real workmanship, materials and designing represented in this exceedingly low priced washer value.

The Finest Washer Money Can Buy

Too many superlatives cannot be used in describing adequately the HAAG VORTEX, Models 70-E and G. (E means Electric, and G means Gasoline Power. In other words, you do not have to have electricity to enjoy the wonderful convenience and careful performance of the Famous HAAG VORTEX. A dependable 4-Cycle Gasoline motor is provided in such instances which furnishes power not just built to sell as are many washers found on the market today, but of building only highest quality washing machines, which, as a watch, to give trouble-free service for a long period of time, and is not just built to sell as are many washers found on the market today.

If you give thought to the proposition of how long a time will elapse between your purchase of a washer now, and the next purchase you will make to replace that washer; you will, without doubt, select the HAAG VORTEX.

The reputation of HAAG BROTHERS COMPANY dates back some twelve years, and during this time it has enjoyed a singular reputation of building on highest quality washing machines, which, as a matter of specific interest is this company's exclusive business. In other words, it is not building washing machines as a side line, but as a major product.

See the VORTEX in action, watch it wash dainty garments as well as coarse heavy clothing, with perfect safety. Let us show you the special safety feature which protects all your garments from harm, and you will be convinced that this is the washer you desire above all others.

The down payment is small and the terms are more than reasonable. Do not put off securing a real washer any longer for it is one of the most helpful servants that you could possibly have in your home.

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young.

With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless; contains no drugs or medicine. It won't cause gas or griping pains, or affect the stomach or kidneys. Every corner druggist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.

Can't Dampen Their Ardor for Bridge!

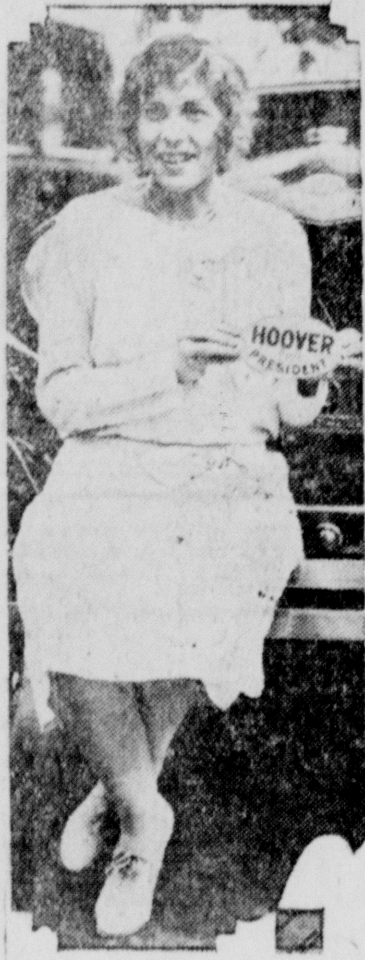

These four mermaids just can't decide whether they like swimming or card-playing the better—so they've worked out an ingenious combination of the two. The quartet excited quite

a bit of attention when they set up their apparatus in the pool at Springfield, Pa., and proceeded calmly with their bridge game.

King Solomon's Stables Revealed

Top photo shows the overturned stone manger from the stables of Solomon, recently discovered by the Oriental Institute of the University of Chicago at Armageddon, Arabia. Armageddon is famed as being the historic battleground of the Old Testament where the Israelites battled their enemies in Biblical days. Lower photo is a view of the ancient stone hitching posts of the stables, found at Megiddo. The old tie-holes are circled in the picture.

The Great Independent

Pride in His Job

The workman is putting something of his personality into every job on which he works. He does this unconsciously, whether he wills it or not. The individuality of the draftsman is seen in the blueprint, even before one recognizes his signature. The personality of the machinist is seen in the file marks and the chisel prints. Every worker in wood, iron or stone or leather or cloth puts something of himself into his task. You may have rules regarding spaces and margins, but the personality of the stenographer is seen in the typewritten sheet. All of which should induce every worker to take pride in his particular craft or job, whatever it may be. And the way in which a man works—whatever may be the tool marks of his profession—will also reveal his spiritual qualities.—Charles Stetzel in Forbes Magazine.

PUNCH IN SIXTH STANZA SAVES ITALIAN

Johnny Had Opponent On Verge of Sure Defeat When Foul Came

LEVELANDER IS STILL CONTENDER

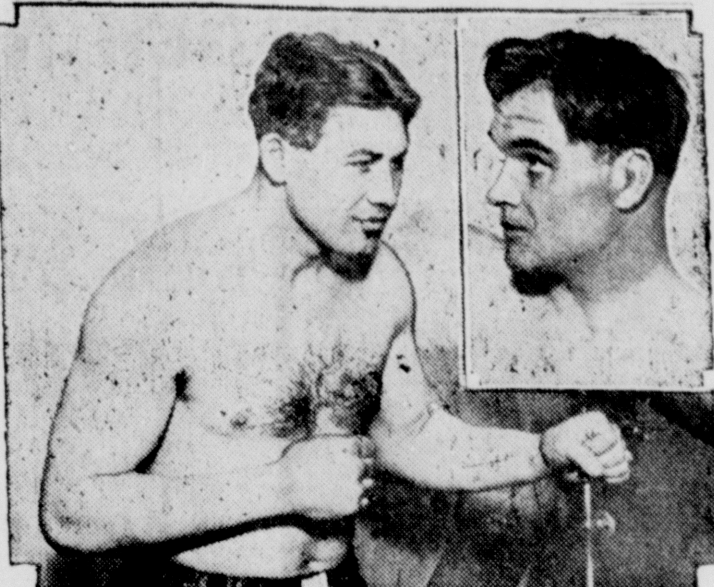

Both Remain In There To Seek Heavy Crown As Result Last Night

BY DAVIS J. WALSH
New York, Aug. 16.—Strange things these heavyweight eliminations. They never eliminate anyone, even a guy who can't fight.

Therefore, it wasn't surprising when this couple of Roberts fellows, who were supposed to be the main event of the night, were eliminated by a foul punch in the sixth stanza.

Johnny Risko, Cleveland baker boy, who has been trying to follow up Gene Tunney's retirement with a claim that he should be champ, lost on a low punch in his bout with Roberto Roberti (right) at Ebbets Field last night.

Horsemen's Strike At Hawthorne Is Broken

Chicago, Aug. 15.—Seven horse races were to be run today at Hawthorne race track, following the breaking of the first horsemen's strike in American turf history, which had earlier necessitated calling off this afternoon's program.

The entry box at Hawthorne was opened at 8 o'clock this morning for owners who wished to name horses for today's program, and Charles Bidwell, track secretary, declared

there would be a full entry for every race on the card.

The strike, which had threatened to terminate the recent meeting at Hawthorne, was broken at the end of ten hours, when President John C. Schank of the Chicago Business Men's Racing association, which controls racing at the Cicero track, threatened the owners that they would be ruled from the turf if they refused to fill today's program.

The strike was precipitated when track officials refused to bar former Senator Johnson, Camden and Edward Trotter at the request of the Thoroughbred Horse association. This demand followed refusal of Camden and Trotter to sign an agreement to donate 1 per cent of each purse won to the association's general fund.

When the Chicago Business Men's Racing association refused to act, President W. E. Caskey of the Thoroughbred association ordered all members, which included every owner at Hawthorne since Camden and Trotter refused to make entries for today's racing.

At the time only two horses had been named for this afternoon's races and the Hawthorne officials were compelled to call off the day's program and also hold in abeyance the programs for the eight remaining days of the meeting, pending a settlement of the strike.

At last night's meeting, the owners agreed to take their grievance to the Illinois Turf association.

They agreed also to continue racing pending the outcome of the proposed parley, the date of which was to be announced today.

The men named to represent the Thoroughbred association at the conference with the Illinois Turf association are owners Rome re-pass, Tom Murphy and Tom Haynes of Kentucky and Owner Preston Burch of Illinois.

WALTER COX IS SUSPENDED FOR CAUSING SPILL

Three Harness Drivers In Hospital After Crash At North Randall

Cleveland, Aug. 16.—Three harness racing drivers were in St. Alex's hospital here today following a bad spill in the \$11,000 champion stallion stake at North Randall late yesterday. Officials said it was the worst wreck in the last 25 years of harness racing and the worst in history at North Randall.

The collision occurred as the closely packed field thundered into the back stretch. A half-dozen horses were thrown to the ground, skulies wrecked, and injured drivers either thrown clear or endangered by the hoof of the rearing, frightened horses, while screams from the crowd of 15,000 in the stands added to the bedlam.

Walter Cox, a veteran circuit driver, was charged with responsibility and barred from racing for one month. Cox was driving Fireglow, greatest two-year-old of the 1927 season and is alleged to have gone into a cluster of skulies, while attempting to take the lead, upsetting Guy Abbey, one of the horses and Dick McMahon, his driver. Fireglow went on to win, but was disqualified.

Tom Berry suffered a broken right leg. McMahon a broken collar bone, and Alonzo MacDonald a broken right foot, scalp lacerations and sprained shoulder. Several of the horses were knocked breathless and could not rise from the track for some time, but were otherwise uninjured. Marvin Childs, another driver, was unconscious for 20 minutes but was not believed seriously hurt.

COURTNEY WILL BATTLE EVANS

Youngstown, Aug. 16.—After sticking in a telephone booth for the biggest part of a day and sweating off at least 20 pounds of his excess tissue, Al Zili, Youngstown promoter, comes to bat with the news that he has closed with George Courtney for Aug. 28 to Battle Dick Evans over the ten round route at Idora park.

There isn't any doubt in the world that Courtney is the best boy that Evans has been called upon to face, with all due respects to Jock Malone, Maxie Rosenbloom and Pete Latzo, whom Dick also has met.

U. S. Taking Lead In Airmail Lines Over Nations of World

Chicago, Aug. 16.—Recent information compiled by the American Air Transport association shows that the United States is piling up an increased lead over air mail lines of other nations. The air mail operators of this country are now flying their planes more than 600,000 miles a month or more than 7,200,000 miles a year. These planes are carrying in excess of three tons of mail daily. Figures show that the public is rapidly increasing its use of 100-mile an hour air transportation. With the present network it is possible to save time from and to practically any city, even if the community is not of the regular air lanes.

CHICAGO STOPS GIANTS' SPURT

McCarthy's Men Pull Win Out of Fire; Yanks Lose; Macks Ditto

New York, Aug. 16.—Beating the Chicago Cubs on their home grounds is almost as difficult as winning a bout with the missus or a big league umpire. The New York Giants found that out yesterday when the McCarthy job put on a three-run rally in the ninth and pulled a 6 to 5 victory out of the fire. Three defeat snapped the Giant's winning streak of five games and put them 3½ games behind the St. Louis Cardinals, who beat Boston.

Fred Maguire, ex-Giant, drove in the winning run and Norman McMillan, substitute third baseman, practically ruined the afternoon for Joe Genewich by wallowing three hits including a robust home run.

Sunny Jim Bottomley, the spark plug of the Cardinals, is hitting and the team is winning again. Three hits by James, including his 26th homer, helped Wee Willie Sherdel breeze home to a 7 to 3 win over the Braves.

New York and Philadelphia are pulling an Alphonse and Gaston act in the American league. The White Sox bumped off the Yanks again, 8 to 4, but the Athletics dropped another game to Detroit.

Miller Huggins put Dugan and Lazzeri back into the lineup but the Yanks couldn't make much headway against Red Faber, although Dugan hit for the circuit and G. H. Ruth collected his 45th homer. Faber and his battery mate, Crouse, led the attack on Pipgras and Johnson with home runs.

Sam Gibson of the Tigers stopped the A's while his mates combed Jack Quinn for six runs in the last two innings, winning 6 to 3.

Those three grand veterans, Vance, Petty and Harris, led Brooklyn to a 6 to 5 victory over Pittsburgh. Vance ran himself ragged in making three timely hits and Petty saved the game. Harris socked a homer and twice saved the game with a dazzling catch and a rifle throw.

Vance chalked up his sixth straight win and his tenth victory in his last eleven starts.

A seven-run rally in the eighth enabled the Reds to swamp the Phils, 11 to 4.

Although Schulte had a perfect day at bat with four hits, The St. Louis Browns lost to Washington, 4 to 3.

Joe Shaute of Cleveland white-washed Boston, 7 to 0.

GRANGE FAMILY IS NOW OUT OF ILLINI FOOTBALL

Garland Not Expected To Return to Old Post At End This Season

Champaign-Urbana, Ill., Aug. 16.—The golden regime of the Grange family in football circles at the University of Illinois is over.

Garland Grange, the last of the famous gridiron stars, who upheld the family tradition last year by filling to some extent, at least, the shoes of his famed brother, "Red," is not expected to return to college this fall.

Garland played at end and one of the chief problems this season for Coach Bco Zuppke is going to be the development of wing men. Another end, Bill Short, will be unable to play this season on account of illness.

Look To Peters
The passing of the Grange family and the dearth of ends, however, will bring into Illinois' battle for glory another beloved by all who follow the orange and blue. He is Frosty Peters from the plains of Montana, Peters, whose drop kick won from Pennsylvania in 1926, was not a candidate for the football squad last year, but he has sent word he intends to compete for a berth this fall.

Peters, who formerly played behind the line, will be given a trial at end and it is said that Zuppke has a decided notion he can turn out a top-notch wing man in the Montana lad.

Out of 28 men who were awarded varsity letters in 1927, 11 have been lost to the 1928 team. These include Bob Reitsch, center; Mitterwallner, and Nelson, guards; Marriner, Schultz, Perkins and Grable, tackles; French, quarterback; Stewart, halfback and D'Ambrosia, fullback.

Captain Nowack, Burdick and Gordon, tackles; Richman, center; Crane, McClure and Wietz, guards; Deimling, Wolgast, and Jolley, ends; Stuessy, quarter; Timm, Mills and Walker, halfbacks and Humbert, fullback, are those available from last year's letter men.

Freshmen Candidates
Among freshmen candidates and new players, Roush, a light but speedy guard is outstanding. He played on the freshman squad in 1926 but was ineligible for varsity last season.

Huddleston, a guard candidate, weighing 243 pounds; Langhorst, formerly of Wheaton college, and Bjeanich, guards; Liebert, tackle and Schumacher and Erlert, centers, are considered likely material.

Lewis, May, Clason, Hummer, Muhl and Potter will strive for end berths.

New quarterback material includes Chatten, a freshman pilot last year weighs 175 pounds and has considerable ability with the toe.

Bodman, a 186 pounder, who punts, passes and runs the 100-yard dash in 11 seconds, is being groomed for fullback. Other fullback candidates are Conover, Flood and Robinson.

Mt. Union Grid Stars Keeping In Training

Alliance, Aug. 16.—Coach John M. Thorpe, Mount Union college football mentor, will not worry over the physical fitness of a few football candidates when the grid call is answered at the opening of the fall semester.

A number of his veterans of last year's squad have found

employment during the summer at real outdoor jobs which should have them physically conditioned for the hardest gridiron schedule ever arranged for a Purple team.

The upper row of photographs reading from left to right are of three Alliance boys: Lewis Shumaker, guard; Ralph Shank, end, and Alfred Bottomley, halfback, who are working on the construction of the new \$20,000 stadium which Mount Union college will have ready on Oct. 6.

At the left in the lower row is Robert Ball of East Palestine, and end who is employed in the open hearth department of the Alliance plant of the American Steel Foundries. Next to Ball are Captain Paul Bixler, fullback, and Lester Emerson, Mount's speed merchant, who are laboring with a street paving gang in their home town, Louisville.

Robert McCallum, another backfield candidate, is spending the summer behind the wheel of a supply truck for John Wilson, an Alliance contractor.

Both games are involved in the struggle for second and third places in the league standing.

There are three postponed games to be played off next week. These are: Pottery vs City Hall; Collegians vs. Electric Furnace and Federals vs. Methodists.

Following the playoff of the postponed games plans will be completed for playing of benefit games for players injured in league games.

Fight Results

At New York—Roberto Roberti, Italian heavyweight, won from Johnny Risko, of Cleveland, on foul six rounds.

Tommy Grogan of Omaha, knocked out Fernando Fiorelli, South American lightweight, one round.

Lou Barba, New York heavyweight, outpointed Johnny Urban, also of New York, eight rounds.

Amedeo Grillo, Italian lightweight, won decision over Charlie Shorer of Sandusky, O. six rounds.

Jack Seagan, Greenpoint, N. Y., outpointed Billy Lancaster, of Orlando, Fla., four rounds.

At Toronto, Ont.—Larry Gains, Toronto negro heavyweight, won from George Godfrey, Philadelphia negro, on foul, three rounds.

At West New York, N. J.—Gaston Charles, French featherweight, drew with Petie Mack, Jersey City, ten rounds.

New York—"Where salt marsh mosquitoes have been largely eliminated during the last 10 years from New Jersey coastal areas," says the American Journal of Public Health, "there has occurred an annual average increase in taxable value of 75 per cent more than where the mosquitoes are still present."

BAND AT GRAND

Otto Gray's Oklahoma Cowboy band will appear in Salem tonight for the first time since its organization in 1925, opening a three-day engagement at the Grand.

The western troupe is made up of Billy McGinty, member of Roosevelt's famous "Rough Riders," organizer of the band; Otto Gray, director and manager; Mrs. Gray, their son Owen; Fred Wilson, Bill Stonehammer, and Whitey Reuby.

The band's entertainment consists of a complete program of the music and songs of the early days in the west. Stonehammer is a fiddler; Wilson and Reuby stringed instrument experts; Mrs. Gray and young

Owen Gray, singers. Gray and his wife are both expert ropers and do a number of fancy stunts.

Milton Sills is featured on the screen in Jack London's famous story of Alaskan gold fields, "Burning Daylight," with Doris Kenyon.

The picture tells the story of a famous Alaskan gold rush, to which Sills is tempted. There he strives hard to find gold to enable him to leave the country for San Francisco where he hopes to enter society and win a seat on the stock market. He is successful for a time, building up a fortune, but he is framed by a group of richer investors and he loses his fortune.

He forces the conspirators to return his money, but takes it and gives it to other investors who were forced to the wall with him, and returns to Alaska, broke.

"THE YELLOW LILY"

A peasant girl, known to few people except her parents and neighbors, beautiful but poor turns a nation upside down in her refusal to accept the affections of the best "catch" in Hungary and lays the setting for a continuous stream of adventure in "The Yellow Lily," which is at the State tonight.

Billie Dove plays the part of the peasant girl who works in the fields of Hungary with her parents, beautiful and unknown. Then her beauty is recognized by an unscrupulous prince passing through. They fall in love with each other, but she realizing the difference in their positions refuses to marry him.

Clive Brook, as the prince attempts to force her to accept him without benefit of clergy, but is given a setback to which he is not accustomed by her refusal. Hence his reformation which finally results in their love and marriage.

STYLE EDICTS

Paris, Aug. 16.—If woman's place is in the home—as many men still seem to think—she must have harmonious hostess gowns, say the chic Parisian couturiers who feel that women as homemakers can do much by giving frequent thought to harmony between their homes and what they wear in them.

The idea of a hostess dress designed to harmonize with the interior of the home, although not entirely new is now being carried to a high degree of perfection. Line and composition have as big a part to play in it as color and tone. For instance a room has beige walls and chairs upholstered in beige satin. The chairs are of sycamore wood and the rug is of blue-green, violet and black. The curtains are of white silk with the window draperies in lively blue.

What should one wear in a room like this? One of the dressmakers chooses a gown of beige satin and beige chiffon with applique embroideries in silver, black, red and green. The graceful full folds of the skirt are akin to the straight ball of the curtains and the angular embroideries on the skirt are like the simple forms of the chairs and table. The colors harmonize with the rug and curtains.

Hostess gowns for summer entertaining come in delightful soft flowered chiffons and harmonize with cool chintz and cretonne hangings of the country home.

THE HOME KITCHEN

—By Jeannette Young Norton—

Enviably Popular of the Stew

Stew is a distinctive dish with a family tree all its own. The roots of the tree are lost in antiquity, but the branches spread over every land. Not a nation so far investigated is without its stew, varying in ingredients and seasonings according to environment. The Eskimo housewife makes her stew of walrus, reindeer or seal meat. The African cook makes her stew of fish; Eng-

lish, mutton or game, while the Australian cook speaks highly of her stew of Kangaroo tail, and the woman living on Puget Sound tells of a clam called Goeduck that makes a fine stew.

Old-fashioned woodsmen sang the praises of "Mulligan," while the North American Indians made a venison stew with corn meal dumplings, flavored with wild onions. The Western Indians used game for their stew, the Southern Indians made a stew of yucca and peppers, and the Indians of the East coast boasted a stew of swordfish. The three-legged iron pot was used impartially and had no rival until latter day cooks were introduced to modern wares and the new-fangled cookers.

New England Stew

Take two and a half pounds of breast of lamb and put it in the pot with a large sliced onion and cover with plenty of water. Pare and cut in thick slices seven large potatoes and let stand in cold water, add

PE'S TRAINS AT AMERICAN

Real Limiteds Now England, France Than in U. S.

Aug. 16.—The small, looking French and English trains which seem so in pictures, actually make and provide passengers and American trains. There are 55 trains on schedules of 56 miles an hour, and a larger number, according to Com- department statistics. The states has no trains aver- age than 50 miles an hour on a short and only one on a short which covers ground faster than the Philadelphia-Atlantic "cannon ball" trains cover between the two points, in an even hour.

Our Crack Trains
The fast trains of this the "specials" and "limit- ed" between 40 and 50 an hour with a few running at 60 to 80 miles an hour. The bureau of railway declared. These are our the one we see in the trains, with smoke stream- ing from a giant locomotive's stack over 15 or 20 coaches. The trains are small, and round and bulki. Ameri- canize them bustling about miniature business fustily, get- ting nowhere very fast.

Matter of fact, these top af- France and England pop down the countryside at businesslike pace of 100 kilo- meters an hour. That's two miles an hour faster than a mile a min- ute and 10 to 15 miles an hour faster than our best trains.

Afternoon Tea
In this luxury matter, in the the traveler, if he is fas- cinated, and really, may eat, sleep and have aboard train. But in the the train; tea? My word no!

Veteran Lisbon Railroader Will Retire From Service

Lisbon, Aug. 16.—William C. Do you enjoy your food?

If you do not enjoy your food it is a true sign that you are losing your appetite. And when your appetite is "gone" it means you haven't the resistance to ward off disease. Loss of ap- petite is only a symptom. General weakness pervades the entire body. There is no desire to work or play.

Rich, red, blood builds and sustains

Your physician will tell you that lowered vitality is the re- sult of an insufficient supply of red blood cells—those vitalizing elements in the blood that nour- ish and sustain the body.

When you get your red blood cells back up to normal, that sluggish, let-down feeling, loss of appetite, rheumatism, boils, pim- ples, and skin troubles disap- pear. You get hungry again; sleep soundly; solid flesh takes the place of that which was once flabby. You feel strong; and your nerves become steady.

Connecticut May Ban Shipping of Rabbits from West

Hartford, Conn., Aug. 16. — The Connecticut legislature meeting next January will be asked to vote an embargo on the importation of cotton-tail rabbits from the west. Alarm over the prospect of typhus disease recorded as 4 per cent fatal, has led to the proposal for the embargo.

While the state health department was ordering every physician to make a report to the department of any case of the disease observed, the fish and game department sent a general letter to all sportsmen and propagators of game warning them against importing cotton-tail rabbits "regardless of what statements may be made by those who offer such animals for sale."

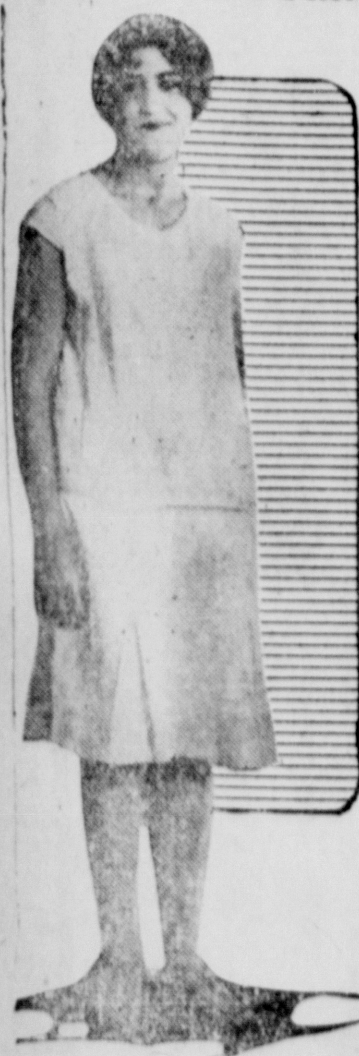

Workers throughout the state were warned to be on their guard when skinning rabbits or handling rabbit furs and owners of rabbits were warned to watch their animals carefully and inform the state officials in the event of disease signs becoming apparent.

Big Town Census To Be Used In Hartford

New Haven, Conn., Aug. 16. — Two Connecticut cities are planning to adopt the metropolitan district scheme of census taking in 1930, and are working out the outlines of their districts. The cities, Hartford and New Haven, have appointed committees to set boundaries for the districts.

Hartford's area now has a population of about 230,000, and New Haven's about 245,000. As a rule the two cities are adopting the plan of including in the metropolitan zone any place that send 10 per cent of its population or more to work in the nearby city.

New England Matches Nation's Air Activity

Boston, Aug. 16. — Rapid as has been the development of aviation in America during the past year, New England has matched the country's stride, pace for pace.

A survey of the newly constructed airports that have sprung up overnight where yesterday cattle grazed has shown that New England's keenness for aviation has sprouted amazingly within the past few years. In addition to the establishment of municipal airports, many cities now boast of factories engaged in the manufacture of airplanes and accessories. With practically no exceptions they are thriving. Many of them are hard put to cope with the flood of orders that flow in steadily. One firm engaged in the manufacture of airplane motors in Hartford, Conn., has a record of \$6,000,000 worth of unfilled business during 1927, with an increasing volume of orders still streaming in.

Many Municipal Airports

The most outstanding feature of the phenomenal increase of interest in aviation and its contingent industries has been the rapid spread of the municipal airport. Towns, scarcely large enough to warrant a railroad station, have blossomed forth with well equipped airports. If unable to maintain a plane at the field, free lance flyers are secured for the week end to take up passengers and for student instruction. Hundreds of Sunday tourists are attracted weekly to these rustic flying fields with resultant profit for the towns. In many cases the yokels who are often pictured by facetious cartoonists as gaping at the mail plane as it sails overhead are, in numerous instances, more accustomed to the airplane than their city cousins.

Incorporation papers for airports have been filed at Rockland, Me., and Meredith, N. H. A large factory in Manchester, N. H., has erected a beacon which is visible for a distance of 25 miles. The unobtrusive town of Dighton, Mass., has formally opened a creditable airport, while at Portland, Me., a school for instruction and ground practice has been established.

New Landing Field. In Rhode Island seven companies have been formed for various aviation activities. At Seekonk, near Pawtucket an 83 acre tract is being converted into a large landing field for a commercial aircraft company. At Portsmouth a firm which intends to engage in crop dusting from airplanes has opened a landing field and hangars. Through the medium of the plane large areas of farm land, hitherto inaccessible for spraying will be protected from the ravages of harmful insects.

At present Rhode Island has the distinction of being the only New England state which manufactures complete airplanes. All the remaining states boast of industries engaged in making some part of the flying craft but none has a factory building complete ships. Agitation has been under way now for some time in the nation's smallest but scrappiest state for a \$300,000 state airport. The issue will come before the voters of the state in November.

Massachusetts has provided for a state field by leasing from the City of Boston its municipal airport for a period of 20 years. The present port has been improved considerably while plans for the construction of a new field are under way.

A number of prominent New Englanders, among them Mayor Nichols of Boston and Governor Trumbull of Connecticut, who contemplate touring Europe in September are seriously considering an airplane as the means of transportation—once the steamer has landed them safely on the continent.

Glider Experiments

In addition to its orthodox aviation activities New England has been the scene this summer of a series of highly interesting glider experiments made by Capt. Roehre and assistants of Germany, backed by J. C. Penney, Jr.

The results of the tests have opened the eyes of many New Englanders to the possibilities of this revival of gliding, first attempted at the opening of the century by the noted Wright brothers. Gliding is less dangerous than flying. Its casualty list is much smaller. A glider, moreover is much less expensive than a regulation plane since no artificial motive power is required.

The wind lifts the glider and keeps it aloft. When it descends it lands lightly as a bit of thistle. In Germany hundreds of young men have adopted gliding as a sport. Its possibilities as a commercial as well as sporting venture are manifold. The Germans test fliers who have established a new American record for sustained flight, are enthusiastic over the prospects of the glider, and many sage New Englanders who have watched the flights are inclined to share their enthusiasm.

The next meeting will be held in the Lutheran church of Washingtonville.

FOR THE GROWING GIRL

This frock offers a choice of necklines. The front is cut down, and may be closed to the neck with a neat round collar, or the neck may be cut out in oval outline and worn collarless with a kerchief. The short kimono sleeves may be lengthened with long wristband sleeves. When made up in a gay-colored cretonne or zephyr, collar, cuffs, belt and pockets in a contrasting plain fabric are a smart touch. In a plain linen or flannel, contrasting trimming is also effective. When made up in répe de Chine of a light summery shade, this frock makes a dainty afternoon costume.

4 HOURS

for less than a Postage Stamp

An ELECTRIC REFRIGERATOR is an economical home convenience that pays for itself in saving bother, preserving foods and health, freeing you from the necessity of continually "watching." Not only that, but—

The Electric Refrigerator is ECONOMIC TO OPERATE. Four hours or more for 2c is pretty cheap Refrigeration, don't you think?

"Your family should be enjoying the health and happiness of Electric Refrigerator ownership."
